Analysis by the Department of Revenue

Statute interpreted: ss. 71.04(4), (4m), (5), (6), (7), (8), and (10), 71.22(1r), 71.23(1) and (2), 71.25(5), (6), (6m), (7), (8), (9), (10), and (15), 71.255(5), and 77.93, Stats.

Statutory authority:

- General rulemaking authority in s. 227.11 (2) (a), Stats.
- Specific rulemaking authority granted in ss. 71.04(8) and 71.25(10), Stats., relating to apportionment of net business income of railroads, sleeping car companies, car line companies, pipeline companies, financial organizations, telecommunications companies, air carriers, and public utilities.

Explanation of agency authority: Each agency may promulgate rules interpreting the provisions of any statute enforced or administered by it, if the agency considers it necessary to effectuate the purpose of the statute.

Related statute or rule: Sections Tax 2.60 to 2.67, Wisconsin Administrative Code

Plain language analysis: This proposed rule order does the following:

1. Amends s. Tax 2.39, Apportionment Method, as follows:

- Explains how the rule applies to corporations that are required to use combined reporting, including applicable cross-references.
- Updates s. Tax 2.39(6), relating to the sales factor, to reflect applicable changes that were enacted by 2009 Acts 2 and 28. More specifically, provides that for taxable years beginning on or after January 1, 2009:
  - "Throwback sales" are included in the numerator at their full amount, rather than at 50%.

- Throwback sales are no longer included in the numerator for sales of services or of the use of computer software.
- Sales of intangibles or the use or licensing of intangibles are no longer sourced according to where the income producing activity occurs. Instead, they are sourced according to the newly created ss. 71.04(7)(dj) and (dk) and 71.25(9)(dj) and (dk), Stats. In general, these statutes source the transaction to where the customer uses the intangible property.

- Provides rules interpreting ss. 71.04(7)(dj) and (dk) and 71.25(9)(dj) and (dk), Stats. relating to sourcing for intangibles for taxable years beginning on or after January 1, 2009.

- Clarifies that for purposes of computing throwback sales, nexus for part of a taxable year is recognized as nexus for the entire taxable year.

2. Amends s. Tax 2.49, Apportionment of Apportionable Income of Interstate Financial Institutions, as follows:

- Explains how the rule applies to corporations that are required to use combined reporting, including applicable cross-references.

- Amends the definition of "financial institution" to include credit card banks and investment subsidiaries of banks.

- Provides that s. Tax 2.49(4)(zs) does not apply to taxable years beginning on or after January 1, 2009. This means that for taxable years beginning on or after January 1, 2009, throwback sales are not included in the numerator except for sales of tangible personal property.

3. Amends s. Tax 2.495, Apportionment of Apportionable Income of Interstate Brokers-Dealers, Investment Advisers, Investment Companies, and Underwriters, as follows:

- Explains how the rule applies to corporations that are required to use combined reporting, including applicable cross-references.

- Provides that s. Tax 2.495(4)(g) does not apply to taxable years beginning on or after January 1, 2009. This means that for taxable years beginning on or after January 1, 2009, throwback sales are not included in the numerator except for sales of tangible personal property.

4. Amends s. Tax 2.502, Apportionment of Apportionable Income of Interstate Telecommunications Companies, as follows:

- Explains how the rule applies to corporations that are required to use combined reporting, including applicable cross-references.

- Provides that for taxable years beginning on or after January 1, 2009, the sales factor means the sales factor under s. 71.25(9), Stats., as in effect for the current taxable year. This statute sources sales based on where the benefit of the service is received.

- Specifies how various types of telecommunications services would be sourced under s. 71.25(9), Stats.. Under the rule, the location where the benefit of the service is received is determined using principles consistent with the Streamlined Sales and Use Tax Agreement.

5. Amends s. Tax 2.82, Nexus, as follows:

- Explains how the rule applies to corporations that are required to use combined reporting, including applicable cross-references.

- Defines "loans" for purposes of applying s. 71.22(1r), Stats.

- Clarifies that nexus for part of a taxable year is recognized as nexus for the entire taxable year.

- Provides that the same nexus standards apply to the recycling surcharge as apply to the corporation franchise or income tax.

***6. Amends the following rules to explain how they apply to corporations that are required to use combined reporting, including applicable cross-references*:**

- Tax 2.46 – Apportionment of business income of interstate air carriers
- Tax 2.47 – Apportionment of business income of interstate motor carriers
- Tax 2.475 – Apportionment of net business income of interstate railroads, sleeping car companies, and car line companies
- Tax 2.48 – Apportionment of net business incomes of interstate pipeline companies
- Tax 2.50 – Apportionment of apportionable income of interstate public utilities

Summary of, and comparison with, existing or proposed federal regulation: There are no existing or proposed federal regulations that relate to apportionment of income among states.

Comparison with rules in adjacent states: Minnesota, Michigan, Illinois, and Iowa each have their own unique rules and relating to apportionment and nexus. Following is a summary of how the rules and regulations of these other states have provisions similar to the substantive provisions in this rule order:

Minnesota

- Services are sourced to where the benefit of the service is received.
- Holding loans secured by real or tangible personal property in the state creates nexus.
- Loan-backed securities are generally not "loans" that would create nexus.
- Nexus for part of the taxable year is nexus for the entire taxable year.

Michigan

- Services are sourced to where the benefit of the service is received.
- For telecommunications services, the location where the benefit of the service is received is determined using principles consistent with the Streamlined Sales and Use Tax Agreement.
- Loan-backed securities are generally not "loans" that would create nexus.

- Nexus for part of the taxable year is nexus for the entire taxable year.

Illinois

- Loan-backed securities are generally not "loans" that would create nexus.
- Nexus for part of the taxable year is nexus for the entire taxable year.
- For telecommunications services, the location where the benefit of the service is received is determined using principles consistent with the Streamlined Sales and Use Tax Agreement.
- Defines "financial organization" to specifically include credit card banks and their subsidiaries.

Iowa

- Services, including telecommunications services, are sourced to where the benefit of the service is received.
- Holding loans secured by real or tangible personal property in the state creates nexus.
- Loan-backed securities are generally not "loans" that would create nexus.
- Nexus for part of the taxable year is nexus for the entire taxable year.

Summary of factual data and analytical methodologies: The Department reviewed the statutory provisions enacted by 2009 Acts 2 and 28 and identified existing provisions of chapter Tax 2, Wisconsin Administrative Code, that no longer reflect current law or do not provide useful interpretation of the statutes as amended. The Department studied the laws and regulations of our neighboring states in addition to the model apportionment regulations developed by the Multistate Tax Commission (MTC) to determine how those states have been interpreting statutes that are similar to Wisconsin's. Also, since Michigan and Illinois just updated their apportionment rules for telecommunications companies (in 2008 and 2009, respectively), the Department contacted those states for insight on the industry reaction to those changes.

Analysis and supporting documents used to determine effect on small business: Nexus and apportionment issues generally apply to businesses that are large, multistate corporations. Thus, this rule does not have a significant effect on small business.

Anticipated costs incurred by private sector: This rule does not result in a significant cost to the private sector.

Effect on small business: This rule does not have a significant effect on small business.

SECTION 1. Tax 2.39 (1) is amended to read:

Tax 2.39 (1) GENERAL. Except as provided in sub. (3), any person, except resident individuals, resident estates, and resident trusts, engaged in business both in and outside this state shall apportion its apportionable income using the statutory apportionment method as provided in s. 71.04 (4) or 71.25 (6), Stats., when the person's business in this state is an

integral part of a unitary business unless the department, in writing, allows reporting on a different basis. However, if a corporation is in a combined group, the corporation's Wisconsin share of the combined group's apportionable income is computed as provided in s. 71.255(5), Stats., and further detailed in s. Tax 2.61(7) or (8), as applicable. Nonapportionable income shall be allocated as provided in s. 71.25 (5) (b), Stats.

Note to LRB: Replace the note at the end of Tax 2.39 (1) with the following:

Note: See s. Tax 2.62 for rules that apply to determining if a unitary business exists.

Note: A corporation may be in a combined group for taxable years beginning on or after January 1, 2009. See s. Tax 2.61(2) for a description of corporations required to use combined reporting.

SECTION 2. Tax 2.39 (2) (ag) and (ar) are created to read:

Tax 2.39 (2) (ag) "Combined group" has the meaning given in s. 71.255(1)(a), Stats.

(ar) "Commercial domicile" has the meaning given in s. 71.22(1g), Stats.

SECTION 3. Tax 2.39 (2) (b) is amended to read:

Tax 2.39 (2) (b) "Engaged in business in and outside this state" means having business activity which is sufficient to create nexus in this state and at least one other state or foreign country. For a combined group, the activities of the combined group are taken as a whole in determining if the combined group is engaged in business in and outside this state, as provided in s. 71.255(5)(a), Stats.

SECTION 4. Tax 2.39 (2) (cm) is created to read:

Tax 2.39 (2) (cm) "Intangible property" includes but is not limited to patents, copyrights, trademarks, trade names, service names, franchises, licenses, plans, specifications, blueprints, processes, techniques, formulas, designs, layouts, patterns, drawings, manuals, technical know-how, contracts, and customer lists. Intangible property does not include stocks, bonds, certificates of deposit, or other securities.

SECTION 5. Tax 2.39 (2) (d) is amended to read:

Tax 2.39 (2) (d) "Nexus" means that a taxpayer's business activity in a state or foreign country is of such a degree that the state or foreign country has jurisdiction to impose an income tax or franchise tax measured by net income on the taxpayer. For a combined group, the activities of the combined group are taken as a whole in determining if the combined group has nexus in a state or foreign country, as provided in s. 71.255(5)(a), Stats. Nexus may exist even if a state or foreign country does not impose a tax on the taxpayer. Conversely, voluntary filing and paying income or franchise taxes when not required to do so, or paying a fee for qualification, organization or for the privilege of doing business in that state or foreign country does not, in itself, create nexus.

Note to LRB: Amend the examples at the end of Tax 2.39 (2) (d) as follows:

1) State A imposes a corporation franchise tax measured by net income for the privilege of doing business in that state. Corporation X files a return and pays the $50 minimum tax, although it carries on no activities in State A. Corporation X does not have "nexus" in State A under these circumstances.

2) State B requires all nonresident corporations which qualify or register to do business in State B to pay to the secretary of state an annual license fee or tax for the privilege of doing business in the state regardless of whether the privilege is in fact exercised. The amount paid is determined according to the total authorized capital stock of the corporation; the rates are progressively higher by bracketed amounts. The statute sets a minimum fee of $50 and a maximum fee of $500. ~~Failure to pay the tax bars a corporation from utilizing the state courts for enforcement of its rights.~~ State B also imposes a corporation income tax. Nonresident Corporation Y is qualified to do business in State B and pays the required fee to the secretary of state but does not carry on any activities in State B ~~other than utilizing its courts~~. Corporation Y does not have "nexus" in State B under these circumstances.

3) State C requires all nonresident corporations qualified or registered to do business in State C to pay to the secretary of state an annual permit fee or tax for doing business in the state. The base of the fee or tax is the sum of (1) outstanding capital stock, and (2) surplus and undivided profits. The fee or tax base attributable to State C is determined by a three-factor apportionment formula. Nonresident Corporation Z, which operates a plant in State C, pays the required fee or tax to the secretary of state. Corporation Z by virtue of its operation of a plant in State C has "nexus" in State C.

4) State D imposes a corporation franchise tax measured by net income for the privilege of doing business in that state. Corporation W files a return based upon its business activities in the state but the amount of computed liability is less than the minimum tax. Corporation W pays the minimum tax. Corporation W has "nexus" in State D under these circumstances.

5) Corporation U is actively engaged in manufacturing farm equipment in State E. State E imposes a net income tax but exempts corporations engaged in manufacturing farm equipment. Corporation U has "nexus" in State E under these circumstances.

6) Corporation V has a sales office and warehouse located in State F. State F does not impose a corporation franchise or income tax. Corporation V has "nexus" in State F.

SECTION 6. Tax 2.39 (3) (d) and (e) and (6) (b) 1. d., 2. (intro.), 3. b., and 4. b. are amended to read:

Tax 2.39 (3) (d) For taxable years beginning after December 31, 2007, persons engaged in business in and outside this state, except direct air carriers, financial organizations, telecommunications companies, pipeline companies, public utilities, railroads, and sleeping car companies, as defined in ss. 71.04 (8) (a) and (b) 2. and 71.25 (10) (a) and (b) 2., Stats., and corporations that are authorized to use an alternative method of apportionment under s. 71.25 (14), Stats., shall use ~~an~~ only the sales factor to compute the apportionment fraction, as ~~described~~ provided in s. 71.04 (4) (d) or 71.25 (6) (d), Stats. Sales related to the production of nonapportionable income may not be included in either the numerator or the denominator of the sales factor. If either the numerator or the denominator of the sales factor is zero or a negative number, the sales factor shall be determined as described in ss. 71.04 (4m) (a) 2., (b) 2., or (c) 2. or 71.25 (6m) (a) 2., (b) 2., or (c) 2., Stats.

Note to LRB: Insert a second note at the end of Tax 2.39 (3) (d) as follows:

Note: Corporations that are in combined groups use a modified sales factor to compute their Wisconsin share of apportionable income of the entire combined group. See s. 71.255(5), Stats., and s. Tax 2.61(7) for details.

(e) The apportionment method may be used only if the taxpayer or combined group is engaged in business both in Wisconsin and at least one other state or foreign country and its business in Wisconsin is an integral part of a unitary business. For a combined group that has made the controlled group election provided in s. 71.255(2m), Stats., the entire combined group's business is deemed to be a single unitary business.

Notes to LRB: 1) Delete the first note at the end of Tax 2.39 (3) (e) and amend the second note as follows:

Note: See s. Tax 2.395 for an alternative method of apportioning the income of certain corporations. A qualifying combined group may also petition for an alternative apportionment method. See s. Tax 2.64 for details.

2) Replace the note at the end of Tax 2.39 (6) (a) with the following:

Note: A corporation that is a combined group member must adjust its sales factor numerator and denominator as described in s. Tax 2.61(7).

(6) (b) 1. d. The recipient is in Wisconsin, even ~~thought~~ though the property is ordered from outside Wisconsin.

2. (intro.) If the taxpayer does not have nexus in the state of destination, the sale is attributed to Wisconsin if the property is shipped from an office, store, warehouse, factory or other place of storage in Wisconsin. ~~The~~ For taxable years beginning before January 1, 2009, the amount included in the numerator of the sales factor shall be ~~at~~ 50% of the ~~sales~~ gross receipts from the sale. For taxable years beginning on or after January 1, 2009, the amount included in the numerator of the sales factor shall be the total gross receipts from the sale. For purposes of this subdivision:

3. b. If the taxpayer does not have nexus in the state from which the property is delivered or shipped, then the sale is in Wisconsin ~~and the amount included in the numerator of the sales factor shall be at 50% of the sale~~. For taxable years beginning before January 1, 2009, the amount included in the numerator of the sales factor shall be 50% of the gross receipts from the sale. For taxable years beginning on or after January 1, 2009, the amount included in the numerator of the sales factor shall be the total gross receipts from the sale.

4. b. Gross receipts from the sales of tangible personal property are in Wisconsin if the property is shipped from an office, store, warehouse, factory or other place of storage in Wisconsin and delivered to the federal government, including its agencies and instrumentalities, outside Wisconsin and the taxpayer does not have nexus in the destination state. ~~The~~ For taxable years beginning before January 1, 2009, the amount included in the numerator of the sales factor shall be 50% of the gross receipts from the sale. For taxable years beginning on or after January 1, 2009, the amount included in the numerator of the sales factor shall be the total gross receipts from the sale.

SECTION 7. Tax 2.39 (6) (b) 5. is created to read:

Tax 2.39 (6) (b) 5. For purposes of applying subds. 2. to 4., whether the taxpayer has nexus in the destination state is determined using the same standards as set forth in s. Tax 2.82.

SECTION 8. Tax 2.39 (6) (c) (title) is amended to read:

Tax 2.39 (6) (c) (title) ~~*Sales other than sales*~~ <u>*Leases, rentals, or licensing*</u> *of tangible personal property attributable to Wisconsin.*

SECTION 9. Tax 2.39 (6) (c) 1. to 4. are repealed

SECTION 10. Tax 2.39 (6) (c) 5. is renumbered (6) (c) 1. and amended as renumbered to read:

Tax 2.39 (6) (c) 1. Except as described in subd. ~~6.~~ <u>2.</u>, the numerator of the sales factor includes gross receipts from the lease, rental, licensing, or other use of tangible personal property owned by the taxpayer and the sublease of tangible personal property if the property is located in this state during the entire period of lease, rental, licensing, sublease, or other use. If the property is used in and outside this state during the period of lease, rental, licensing, or sublease, gross receipts are included in the numerator of the sales factor to the extent that the property is used in this state. The proportion of use in this state is determined by multiplying the gross receipts from the lease, rental, licensing, sublease, or other use of the property by a fraction having as a numerator the number of days the property is in this state while leased, rented, licensed, or subleased in the taxable year and having as a denominator the total number of days that the property is leased, rented, licensed, or subleased in all states having jurisdiction to tax the taxpayer during the taxable year.

SECTION 11. Tax 2.39 (6) (c) 6. (intro.) and a. to c. are renumbered (6) (c) 2. (intro.) and a. to c.

SECTION 12. Tax 2.39 (6) (c) 6. d. is renumbered (6) (c) 2. d. and amended as renumbered to read:

Tax 2.39 (6) (c) 2. d. If the taxpayer is unable to determine the use of moving property under subd. ~~6.~~ <u>2.</u> a., b., or c. while the property is leased, rented, licensed, or subleased in the taxable year, the moving property is conclusively deemed to be used in the state in which the property is located at the time that the lessee, licensee, or sublessee takes possession of the property.

SECTION 13. Tax 2.39 (6) (c) 7. and 8. are repealed

SECTION 14. Tax 2.39 (6) (d) to (i) are created to read:

Tax 2.39 (6) (d) *Sales, leases, rentals, or licensing of real property attributable to Wisconsin.* The numerator of the sales factor includes gross receipts from the sale, lease, rental, licensing, or other use of real property owned by the taxpayer if the real property is located in this state and gross receipts from the sublease of real property if the real property is located in this state.

(e) *Receipts attributable to Wisconsin from the use of computer software.* Receipts attributable to Wisconsin from providing the use of computer software are determined as provided in ss. 71.04(7)(df) and 71.25(9)(df), Stats.

Note: For taxable years beginning after December 31, 2004 and before January 1, 2009, subd. 3. of ss. 71.04(7)(df) and 71.25(9)(df), Stats., provided that if the taxpayer is not subject to income tax in the state in which the gross receipts are considered received but the taxpayer's commercial domicile is in Wisconsin, 50 percent of the taxpayer's receipts from the transaction are included in the numerator of the sales factor. This provision was repealed by 2009 Wis. Act 28.

(f) *Sales of services attributable to Wisconsin.* Sales of services are attributable to Wisconsin if the benefit of the service is received in Wisconsin, as provided in ss. 71.04(7)(dh) and 71.25(9)(dh), Stats.

Note: For taxable years beginning after December 31, 2004 and before January 1, 2009, subd. 4. of ss. 71.04(7)(dh) and 71.25(9)(dh), Stats., provided that if the taxpayer is not subject to income tax in the state in which the benefit of the service is received, 50 percent of the taxpayer's receipts from the transaction are included in the numerator of the sales factor to the extent the taxpayer's employees or representatives performed the service from a location in Wisconsin. This provision was repealed by 2009 Wis. Act 28.

(g) *Receipts from intangible property for taxable years beginning before January 1, 2009.* For taxable years beginning before January 1, 2009, the numerator of the sales factor includes gross receipts from the sale, licensing the use of, or other use of intangible property, if the income producing activity occurs in this state during the taxable year. If the income producing activity occurs in and outside this state, the gross receipts shall be allocated between those states having jurisdiction to tax the taxpayer based on the direct costs of performance. For purposes of this paragraph, "income producing activity" means the act or acts engaged in by the taxpayer, or persons acting on behalf of the taxpayer, for the ultimate purpose of obtaining gains or profit, and "costs of performance" means direct costs determined in a manner consistent with generally accepted accounting principles and in accordance with accepted conditions or practices in the trade or business of the taxpayer.

Note: Refer to ss. 71.04 (7) (d), (df), and (dh) and 71.25 (9) (d), (df), and (dh), 2007-08 Stats., as affected by 2005 Wis. Act 25.

(h) *Receipts from intangible property for taxable years beginning on or after January 1, 2009.* For taxable years beginning on or after January 1, 2009, the amount includable in the numerator of the sales factor for gross receipts from the sale of, license of, or allowing use of intangible property in this state is determined as provided in ss. 71.04(7)(dj) and (dk) and 71.25(9)(dj) and (dk), Stats. For purposes of applying these paragraphs, the following rules apply:

1. To determine the purchaser's or licensee's use of intangible property in this state, factors that may be considered include the number of licensed sites in each state, the volume of property manufactured, produced, or sold pursuant to the arrangement at locations in this state, or other data that reflects the relative usage of the intangible property in this state.

2. If the purchaser's or licensee's billing address or commercial domicile is in this state, that billing address or commercial domicile shall not conclusively determine that the transaction is in this state except in cases where the location of use of the intangible property cannot be determined. If the location of use of the intangible property cannot be determined, subds. 3. and 4. apply.

3. If the location of use of the intangible property cannot be determined, the gross receipts from the sale of, license of, or other receipts from allowing use of intangible property are in this state if the purchaser's or licensee's commercial domicile is in this state.

4. If subd. 3. would otherwise apply except that the state of the purchaser's or licensee's commercial domicile cannot be determined, the gross receipts from the sale of, license of, or allowing use of intangible property are in this state if the purchaser or licensee is billed for the purchase, license, or use of the intangible property at a location in this state.

(i) The provisions of pars. (c) to (h) shall also apply to sales to the federal government.

Note to LRB: Amend the notes at the end of Tax 2.39 (6) (i) as follows:

Note: Section Tax 2.39 interprets ss. 71.04 (4), (4m), (5), (6), (7), (10), and (11) ~~and~~ ,71.25 (5), (6), (6m), (7), (8), (9), (11), and (15), and 71.255 (5), Stats.

Note: The provisions of s. Tax 2.39 first apply for taxable years beginning on January 1, 2005. For returns required under combined reporting, the provisions of s. Tax 2.39 first apply for taxable years beginning on January 1, 2009.

SECTION 15. Tax 2.46 is repealed and recreated to read:

Tax 2.46 Apportionment of apportionable income of interstate air carriers. (1) The apportionable income of an air carrier engaged in business in and outside this state shall be apportioned to Wisconsin as described in this section, except if the air carrier is in a combined group, its Wisconsin share of the combined group's apportionable income is computed as provided in s. 71.255(5), Stats., and further detailed in s. Tax 2.61(7).

Note: An air carrier that is a corporation may be in a combined group for taxable years beginning on or after January 1, 2009. See s. Tax 2.61(2) for a description of corporations required to use combined reporting.

(2) DEFINITION. In this section, "engaged in business in and outside this state" has the same meaning as in s. Tax 2.39(2)(b).

(3) APPORTIONMENT FORMULA COMPUTATION. An air carrier that is engaged in business in and outside this state shall apportion its apportionable income to this state on the basis of the ratio obtained by taking the arithmetical average of the following 3 ratios:

(a) The ratio which the aircraft arrivals and departures within this state scheduled by such carrier during the calendar or fiscal year bears to the total aircraft arrivals and departures within and without this state scheduled by such carrier during the same period; provided that in the case of nonscheduled operations all arrivals and departures shall be substituted for scheduled arrivals and departures.

(b) The ratio which the revenue tons handled by such carrier at airports within this state during the calendar or fiscal year bears to the total revenue tons handled at airports within and without this state during the same period.

(c) The ratio which such air carrier's originating revenue within this state for the calendar or fiscal year bears to the total originating revenue within and without this state for the same period.

Note: Air carriers that are in combined groups must adjust the numerator and denominator of each of these factors and then convert the arithmetical average of these factors to the modified sales factor. The modified sales factor then determines the company's Wisconsin share of the combined group's apportionable income. See s. 71.255(5), Stats., and s. Tax 2.61(7) for details.

Note: Section Tax 2.46 interprets ss. 71.04 (8) (c) and 71.25 (10) (c), Stats.

SECTION 16. Tax 2.47 (title) is amended to read:

Tax 2.82 Nexus. (1) BACKGROUND AND SCOPE. (a) Every domestic corporation, one incorporated under Wisconsin's laws, except those exempt under ss. 71.26(1) and 71.45(1), Stats., and every licensed foreign corporation, one not incorporated in Wisconsin, is

required to file a complete corporation franchise or income tax return, form 4 or 5, regardless of whether or not business was transacted.

(b) A foreign corporation is "licensed" if it has obtained a Certificate of Authority from the department of financial institutions to transact business in this state pursuant to s. 180.1501, Stats. A licensed foreign corporation is presumed to be subject to Wisconsin franchise or income taxes.

(c) An unlicensed foreign corporation is subject to Wisconsin franchise or income taxes if it has nexus with Wisconsin. The purpose of this rule is to provide guidelines for determining what constitutes nexus, that is, what business activities are needed for a foreign corporation to be subject to Wisconsin franchise or income taxes. The rule also explains how nexus applies to a foreign corporation in the context of s. 71.255, Stats., relating to combined reporting, and s. 77.93, Stats., relating to the recycling surcharge.

(2) DEFINITIONS. In this section:

(a) "Business location" includes a repair shop, parts department, purchasing office, employment office, warehouse, meeting place for directors, sales office, permanent sample or display room, research facility or a recreational facility for use of employees or customers. A residence of an employee or representative is not ordinarily considered a business location of the employer unless the facts indicate otherwise. Facts that may indicate a residence of an employee or representative is a business location include the following: a portion of the residence is used exclusively for the business of the employer, the employee is reimbursed or paid a flat fee for the use of this space by the employer; the employee's phone number is listed in the yellow pages or on the Internet under the name of the employer; the employee uses supplies, equipment or samples furnished by the employer; or the space is used by the employee to interview prospective employees, hold sales meetings, or discuss business with customers.

(b) "Loans" include any extension of credit resulting from direct negotiations between the taxpayer and its customer, or the purchase, in whole or in part, of an extension of credit from another. "Loans" include participations, syndications, and leases treated as loans for federal income tax purposes. "Loans" do not include properties treated as loans under section 595 of the Internal Revenue Code prior to its repeal by P.L. 104−188; futures or forward contracts; options; notional principal contracts such as swaps; credit card receivables, including purchased credit card relationships; non−interest bearing balances due from depository institutions; cash items in the process of collection; federal funds sold; securities purchased under agreements to resell; assets held in a trading account; securities; or interests in a real estate mortgage investment conduit or other mortgage−backed or asset−backed security.

(c) "Representative" includes an employee, independent contractor, or any other person or entity engaged in substantial activities that helped the taxpayer to establish or maintain a market in this state.

Note: Under *Tyler Pipe Industries, Inc. v. Washington State Dept. of Revenue*, 483 US. 232 (1987), the U.S. Supreme Court held that it made no difference whether the taxpayer's representatives were classified as independent contractors or employees. Also see *Scripto, Inc. v. Carson*, 362 U.S. 207 (1960).

(3) FEDERAL LIMITATIONS ON TAXATION OF FOREIGN CORPORATIONS.
(a) *Federal constitutional provisions.* 1. Article I, Section 8 of the U.S. Constitution grants congress the power to regulate commerce with foreign nations and among the several states. States are prohibited from levying a tax which imposes a burden on interstate or foreign commerce. However, this does not mean states may not impose any tax on interstate commerce. A state tax on net income from interstate commerce which is fairly attributable to the state is constitutional. (*Northwestern States Portland Cement Co. v. Minnesota; Williams v. Stockham Valves & Fittings, Inc.*, 358 U.S. 450, 79 S. Ct. 357.)

2. Section I of the 14th Amendment protects taxpayers within any class against discrimination and guarantees a remedy against illegal taxation.

(b) *Federal Public Law 86−272.* 1. Under Public Law 86−272, a state may not impose its franchise or income tax on a business selling tangible personal property, if the only activity of that business is the solicitation of orders by its salesperson or representative which orders are sent outside the state for approval or rejection, and are filled by delivery from a point outside the state. The activity must be limited to solicitation. If there is any activity which exceeds solicitation, the immunity from taxation under Public Law 86−272 is lost.

2. This law, enacted by congress in 1959, does not extend to:

a. Those businesses which sell services, real estate or intangibles in more than one state;

b. Domestic corporations; or

c. Foreign nation corporations, that is, those not incorporated in the United States.

3. If the following activities are the only activities in Wisconsin of a foreign corporation selling tangible personal property, the corporation is not subject to Wisconsin franchise or income taxes under P.L. 86−272:

a. Usual or frequent activity in Wisconsin by employees or representatives soliciting orders for tangible personal property which orders are sent outside this state for approval or rejection.

b. Solicitation activity by non−employee independent contractors, conducted through their own office or business location in Wisconsin.

(4) WHAT CONSTITUTES NEXUS. If a foreign corporation undertakes one or more of the following activities, it is considered to have nexus and shall be subject to Wisconsin franchise or income taxes:

(a) *General.* Any of the following activities constitute nexus:

1. Maintenance of any business location in Wisconsin, including any kind of office.

2. Ownership of real estate in Wisconsin.

3. Ownership of a stock of goods in a public warehouse or on consignment in Wisconsin.

4. Ownership of a stock of goods in the hands of a distributor or other non−employee representative in Wisconsin, if used to fill orders for the owner's account.

5. Usual or frequent activity in Wisconsin by employees or representatives soliciting orders with authority to accept them.

6. Usual or frequent activity in Wisconsin by employees or representatives engaged in a purchasing activity or in the performance of services (including construction, installation, assembly, repair of equipment).

7. Other usual and frequent activities by employees or representatives in Wisconsin such as credit investigations, collection of delinquent accounts, conducting training classes or seminars for customer personnel in the operation, or repair and maintenance of the taxpayer's products.

8. Operation of mobile stores in Wisconsin, such as trucks with driver−salespersons, regardless of frequency.

9. Leasing of tangible property and licensing of intangible rights for use in Wisconsin.

10. The sale of other than tangible personal property such as real estate, services and intangibles in Wisconsin.

11. The performance of construction contracts and personal services contracts in Wisconsin.

12. Engaging in substantial activities that help to establish and maintain a market in Wisconsin.

(b) *"Doing business in this state."* Additionally, if a corporation has any of the activities that are specifically included in the statutory definition of "doing business in this state" (s. 71.22(1r), Stats.), the corporation has nexus except where prohibited by P.L. 86-272. Therefore, the following activities constitute nexus in Wisconsin to the extent sub. (3)(b)3. does not apply:

1. Issuing credit cards, debit cards, or travel and entertainment cards to customers in Wisconsin.

2. Regularly selling products or services of any kind or nature to customers in Wisconsin that receive the product or service in Wisconsin.

3. Regularly soliciting business from potential customers in Wisconsin.

4. Regularly performing services outside Wisconsin for which the benefits are received in Wisconsin.

5. Regularly engaging in transactions with customers in Wisconsin that involve intangible property and result in receipts flowing to the corporation from within Wisconsin.

6. Holding loans secured by real or tangible personal property located in Wisconsin.

7. Owning, directly or indirectly, a general or limited partnership interest in a partnership that does business in Wisconsin, regardless of the percentage of ownership.

8. Owning, directly or indirectly, an interest in a limited liability company that does business in Wisconsin, regardless of the percentage of ownership, if the limited liability company is treated as a partnership for federal income tax purposes.

(c) *Nexus for entire taxable year*. If a corporation has nexus in Wisconsin for any part of its taxable year, it is considered to have nexus in Wisconsin for its entire taxable year, regardless of whether the activity that created the nexus took place throughout the year.

Example: Corporation W is a calendar year corporation that operates five retail stores, one of which is in Wisconsin. The stores constitute a unitary business. Corporation W is not in a combined group. In the year 2010, Corporation W operated one store in Wisconsin. On August 31, 2010, Corporation W sold the Wisconsin store to Corporation Y but continued to operate the other stores outside Wisconsin. Between September 1, 2010 and December 31, 2010, Corporation W had no activities that would create nexus in Wisconsin. Corporation W is considered to have nexus in Wisconsin for its entire taxable year. Therefore, on its 2010 Wisconsin Form 4, Corporation W must compute its apportioned share of Wisconsin income based on its apportionable income from all of its stores for the entire year 2010. In addition, the numerator of the sales factor in its apportionment computation must include sales shipped to Wisconsin customers for the entire year 2010.

(d) *How to obtain ruling.* Paragraph (a) and the statutory definitions summarized in par. (b) as to what activities constitute nexus are not all−inclusive. A ruling may be requested about a particular foreign corporation as to whether it is subject to Wisconsin franchise or income taxes by writing to the Wisconsin Department of Revenue, Audit Technical Services Section, P.O. Box 8906, Madison, WI 53708.

Note: Section 71.23(3), Stats., provides specific activities that do not constitute nexus in Wisconsin even if they exceed the protection of P.L. 86-272.

(5) NEXUS FOR COMBINED GROUP MEMBERS. (a) *General.* For a combined group, nexus is determined for the unitary business as a whole, as provided in s. 71.255(5)(a), Stats. Therefore, if a member of a combined group has nexus in Wisconsin and that nexus is attributable to the combined group's unitary business, all members of the combined group have nexus in Wisconsin.

Example: Assume the same facts as the example in sub. (4)(c). In addition, assume Corporation Y is a member of Combined Group XYZ, which reports on a calendar year. Although Group XYZ operated numerous stores outside Wisconsin for the entire year, none of the members of Group XYZ had any nexus-creating activities in Wisconsin until July 1, 2010, when Corporation Y set up a temporary office in Wisconsin in anticipation of the purchase of the store from Corporation W. However, Corporation Z had sales shipped to Wisconsin customers during 2010. Since Corporation Y established nexus in Wisconsin during the year, Group XYZ is considered to have nexus in Wisconsin for its entire taxable year. Therefore, Group XYZ must file a combined Wisconsin Form 4 for the year 2010. On the combined return, Group XYZ must include its apportionable income for the entire taxable year (from all stores) in the combined unitary income to be apportioned. The Wisconsin share of the combined unitary income for Corporation Y and Corporation Z is then determined as described in s. 71.255(5), Stats., and s. Tax 2.61(7). Assuming all of Group XYZ's Wisconsin sales are attributable to Corporations Y

and Z, Corporations Y and Z would be the only corporations in the group with Wisconsin income.

(b) *Effect of controlled group election.* For a combined group that has made the controlled group election provided in s. 71.255(2m), Stats., the entire commonly controlled group's business is deemed to be a single unitary business, and the commonly controlled group becomes a combined group. Therefore, if a combined group has made the controlled group election and at least one member of the combined group has nexus in Wisconsin, all members of the combined group have nexus in Wisconsin.

Note: See s. Tax 2.62 for further discussion of the concept of a unitary business. Also see s. Tax 2.61(4)(h) for details of how a corporation's nexus may be affected by the water's edge rules of combined reporting, and how these water's edge rules may affect taxation of a corporation's income from a unitary business.

(6) NEXUS FOR RECYCLING SURCHARGE. If a corporation has nexus under this section, the corporation is considered to be doing business in this state for purposes of s. 77.93, Stats., relating to the recycling surcharge. Therefore, if a corporation, other than a corporation exempt from taxation, has nexus and has at least $4,000,000 of gross receipts from all activities for the taxable year, the corporation is subject to the recycling surcharge. The recycling surcharge applies to each member of a combined group separately.

Note: See s. Tax 2.32 for a description of what constitutes gross receipts for purposes of applying the $4,000,000 threshold.

Examples: 1) Corporation A is incorporated outside Wisconsin and is not a member of a combined group. Corporation A is licensed to do business in Wisconsin, but all of its activities in Wisconsin are protected by P.L. 86-272. Therefore, Corporation A does not have nexus. Corporation A is not subject to the recycling surcharge because it does not have nexus in Wisconsin.

2) Assume the same facts as Example 1, except that Corporation A is in Combined Group ABCD, which consists of Corporations A, B, C, and D. Corporation D has a warehouse and several stores in Wisconsin that are part of the combined group's common unitary business. Since Corporation D has nexus in Wisconsin, all corporations in the combined group have nexus in Wisconsin. Corporations A, B, and D have sales to Wisconsin customers but Corporation C does not. The gross receipts, Wisconsin income, gross tax, and resulting recycling surcharge for each corporation in the group are as follows:

Corporation	Gross Receipts	Wisconsin Income	Gross Tax	Recycling Surcharge
A	**$10,000,000**	**$100,000**	**$7,900**	**$237**
B	**$3,000,000**	**$400,000**	**$31,600**	**$0**
C	**$50,000,000**	**$0**	**$0**	**$25**
D	**$100,000,000**	**$6,000,000**	**$474,000**	**$9,800**

The Wisconsin income and gross tax are computed using the method described in s. Tax 2.61. Since the recycling surcharge applies to each member of a combined group separately:

- Corporation A is subject to the recycling surcharge because its gross receipts are at least $4,000,000.
- Corporation B is not subject to the recycling surcharge because its gross receipts are less than $4,000,000.
- Corporation C is subject to the minimum $25 recycling surcharge because its gross receipts are at least $4,000,000 and it has no gross tax liability.

- Corporation D is subject to the maximum $9,800 recycling surcharge because its gross tax of $474,000 multiplied by the recycling surcharge rate of 3% exceeds $9,800. The amount in excess of $9,800 is not imposed even though the other members have recycling surcharge liability of less than $9,800.

Note: Section Tax 2.82 interprets ss. 71.22(1r), 71.23(1) and (2), 71.255(5), and 77.93, Stats.

The rules contained in this order shall take effect on the first day of the month following publication in the Wisconsin administrative register as provided in s. 227.22(2)(intro.), Stats.
